

How to View My Student's Academic Progress *Canvas and Parent and Student Plus Portal*

Canvas LMS (Learning Management System)

Starting with the 2018-19 school year, Tampa Catholic High School will utilize Canvas for our LMS, replacing Edmodo. Student academic progress will be tracked using Canvas.

Students and Parents will use the school-issued student Google email address and password to access Canvas. Canvas can be accessed from any computer/mobile device browser (Chrome works best) using the following URL:

<https://tampacatholic.instructure.com/login/canvas>

In addition, the Canvas STUDENT App can be downloaded from the Apple App Store.

NOTE: Parents must also download and use the Canvas STUDENT App.

Once the Canvas STUDENT App is installed, click on FIND MY SCHOOL.

Select **Tampa Catholic High School - Students /Faculty**.

Make sure to login with the school-issued student Google email address and password.

Parents of returning students must get the student Google email password from their student. The school does not maintain a list of student email passwords. Parents of new students will receive school-issued student Google email account information in July.

Parent and Student Plus Portal SIS (School Information System)

Tampa Catholic High School will continue to utilize the Parent and Student Plus Portal. The Parent and Student Plus Portal will be used to view and print out final term/semester grades and cumulative GPAs. New parents and students will receive Parent and Student Plus login information in July. Returning parents and students already have account information.

You can access the Parent and Student Plus Portal using the following URL:

<https://www.plusportals.com/TampaCatholicHS>

In addition, you can download the Parent or Student Plus Portal app from the Apple App Store. When configuring the app, you will need to type in the school name as follows:

TAMPACATHOLICHS

If you have any technical issues, email it@tampacatholic.org
