

How to View Student Academic Progress *Canvas & Parent and Student Plus Portals*

Canvas LMS (Learning Management System)

Tampa Catholic High School utilizes Canvas for its Learning Management System (LMS) allowing parents and students to monitor student academic progress 24/7.

Students and Parents will use the school-issued student Google email address and password to access Canvas. Canvas can be accessed from any computer/mobile device browser (Chrome works best) using the following URL, which can also be found on the school website under QUICK LINKS:

<https://tampacatholic.instructure.com/login/saml>

In addition, the Canvas STUDENT app can be downloaded from the Apple Store or Google Play.

NOTE: Parents can also download and use the Canvas STUDENT App with the school-issued student Google email login credentials.

Once the Canvas STUDENT App is installed, click on FIND MY SCHOOL.

Select **Tampa Catholic High School - Students /Faculty**.

Make sure to login with the school-issued student Google email address and password found on the **Important New Student Technology Information email** sent out mid-July to the parent email account on file in our school information system database.

Parent and Student Plus Portal (School Information System)

The Parent and Student Plus Portal is used to communicate semester cumulative GPAs and final course grades. New parents and students to Tampa Catholic High School will receive a link to activate their Parent and Student Plus Portal accounts sometime in mid-July.

If you have any technical issues, email it@tampacatholic.org
